THE AMERICAN LIGHTING COMPANY

Fixture Manufacturing BURLINGTON, NC

With close to **one million square feet** of US manufacturing space, Atlas is able to provide high quality fixtures with an industry leading speed of delivery on both stock and custom built fixtures. These products, which are designed and engineered in **America**, have proprietary designs and features that ensure they outperform the competition with higher light output, longer life and greater efficiency. Utilizing an **American workforce** helps ensure the quality of each fixture and after manufacturing these fixtures are all burned in prior to shipment.

Reliable

Due to our USA-based manufacturing, advanced engineering, and high-quality components, all Atlas fixtures are designed to be the most reliable and longest lasting in the industry. After being manufactured in our North Carolina facility, all LED fixtures are burned-in to ensure the highest quality. During the burn-in stage, fixtures are cycled on and off while being closely monitored for brightness and consistency.

Backed By An Ironclad Warranty

Atlas manufactures the most dependable fixtures in the industry and proudly backs that claim with a full 5-year warranty from the original date of purchase. The warranty terms and conditions are simple, plainly outlined and easy to understand. The terms are listed in one page and are free from "loopholes". If ever needed, claims are handled directly with Atlas customer service.

Fast

Atlas is known for unparalleled speed, offering faster product delivery and responses to customer inquiries. Our large inventory of finished goods and USA-based manufacturing make **24-hour shipping** on stock items possible and allows for rapid delivery of custom build orders. Working directly with the factory allows for lightning fast responses to inquiries.

We Make It Easy

Our distributor partners enjoy **best-in-class service and support**, with response times measured in minutes, not hours or days. When calling Atlas, you speak to our USA-based Sales and Customer Service teams directly – no automated phone system or voicemail required. Our Technical Services team is here to help contractors resolve any questions or issues without ever leaving the job site, saving both time and money.
