

LED Lighting Fixture

SAVE THESE INSTRUCTIONS

RISK OF FIRE, EXPLOSION AND ELECTRIC SHOCK

- This product should be installed, inspected, and maintained by a <u>qualified electrician only</u>, in accordance with the NEC (National Electric Code) and all local codes.
- · Turn off electrical power before inspection, installation or removal.
- Use only UL (or other NTRL) approved wire for input/output connections.
- · Make sure LEDs and drivers are cool to touch when performing maintenance.
- Make sure the supply voltage is the same as the rated voltage of the luminaire.
- Do not install in a hazardous atmosphere, except where the ambient temperature does not exceed the rated operating temperature of the fixture.
- · Keep tightly closed when in operation

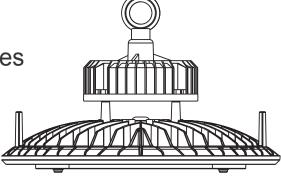

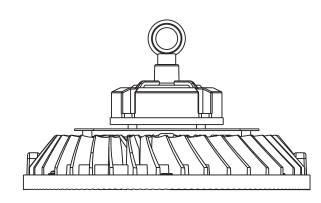

LED Round High Bay ORRH18 / ORRH24L / ORRH30L Series

Step 1: Eye Bolt Suspension

- 1. Install the enclosed eye bolt hook into the top of the luminaire housing, and tighten securely. Tighten the lock-nut to prevent the eyebolt from loosening.
- 2. Suspend fixture with chain or cable securely attached to fixture eve bolt.

Step 2: Wiring

- 1. Turn off electrical supply at the breaker.
- 2. Pull building supply leads into the housing through the access plate.
- 3. Follow all local electrical codes for wiring and grounding requirements.
- 4. Grip black supply wire firmly and push into connector port marked with black circle (opposite black driver wire).
- 5. Grip white supply wire firmly and push into the remaining port.
- 6. Use only conductor per port and assure that no copper is exposed on any of the wires inserted.
- 7. Turn on electrical supply at the breaker.
